Dear Mr. Riva:

The Proposed Permit for the above referenced facility's Title V Facility Permit is available for the required EPA 45-day review period. The Proposed Permit is available to you via the Department's AFS computer system.

The Department's February 28, 2008 Notice of Complete Application was published in a local newspaper and the DEC's Environmental Notice Bulletin, providing the required 30-day public notice period. This notice referenced the availability of the Draft Permit, and the comment period expired on April 4, 2008.

No comments were received and the Proposed Permit has no substantive changes from the Draft Permit.

The Department will not issue the Final Permit if EPA objects to its issuance within 45 days of receipt of the Proposed Permit and all necessary supporting information. We understand that the official review period start and end dates are recorded in your Title V Operating Permits Database (http://www.epa.gov/region02/air/permit/title_v_database.htm).

If you have technical questions about this permit, you may contact Shaun Snee, Division of Air at (631 444-0214). Please provide your comments to my attention on or before the review period end date.

Sincerely,

Marilyn Peterson
Environmental Analyst

Facility: Brookhaven National Laboratory - 55 Bell Ave., Upton NY 11973

Dear Mr. Riva:

Enclosed is a copy of the Notice of Complete Application that has been sent to affected states as required under 40 CFR 70. The New York State Department of Environmental Conservation is proposing to issue an Operating Permit to the above-noted facility(s) which is located on Long Island. This notice is not intended to replace the 45 day EPA review provided by 6 NYCRR Part 201-1.6.4(c). If your office would like a copy of the "working draft" of the permit that is now available please contact me directly at (631) 444-0366 or the above address.

Sincerely;

Marilyn Peterson

UPTON, NY 11973

Application ID: 1-4722-00032/00115

Permits(s) Applied for: 1 - Article 19 Air Title V Facility

Project is located: in BROOKHAVEN in SUFFOLK COUNTY

Project Description:

The Department has prepared a draft permit and has made a tentative determination to issue a renewal Title V Air Facility Permit for the operation of Brookhaven National Laboratory's existing air emissions which include a central steam facility with four boilers that burn natural gas and oil. Other regulated sources include a paint spray booth, printing press and two gasoline storage tanks and pumps. Emissions from this facility are controlled in accordance with multiple State and Federal regulations.

In accordance with 6NYCRR Parts 621.7(b)(9) and 201-6.4(c), the Administrator of the United States Environmental Protection Agency (USEPA) has the authority to bar issuance of any Title V Facility Permit if it is determined not to be in compliance with applicable requirements of the Clean Air Act or 6NYCRR Part 201.

Persons wishing to inspect the subject Title V files, including the application with all relevant supporting materials, the draft permit, and all other materials available to the DEC (the "permitting authority") that are relevant to this permitting decision should contact the DEC representative listed below. The Draft Permit and Permit Review Report may be viewed and printed from the Department web site at:

<http://www.dec.ny.gov/chemical/32249.html>.

DEC will evaluate the application and the comments received on it to determine whether to hold a public hearing. Comments and requests for a public hearing should be in writing and addressed to the Department representative listed below. A copy of the Department's permit hearing procedures is available upon request or on the Department web site at: <http://www.dec.ny.gov/permits/6234.html>.

Availability of Application Documents:

Filed application documents, and Department draft permits where applicable, are available for inspection during normal business hours at the address of the contact person. To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

State Environmental Quality Review (SEQR) Determination

Project is not subject to SEQR because it is a Type II action.

SEQR Lead Agency None Designated

State Historic Preservation Act (SHPA) Determination

The proposed activity is not subject to review in accordance with SHPA. The permit type is exempt or the activity is being reviewed in accordance with federal historic preservation regulations.

DEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)

It has been determined that the proposed action is not subject to CP-29.

Availability For Public Comment

Comments on this project must be submitted in writing to the Contact Person no later than 04/04/2008 or 30 days after the publication date of this notice, whichever is later.

and Commencement of 45 Day EPA Comment Period
Title V Air Facility #1-4722-00032/00115**

Brookhaven National Laboratory

Dear Mr. Riva:

This purpose of this notice is to alert your office that the NYSDEC has prepared a **Proposed** Title V permit for the above-noted facility. Pursuant to 6 NYCRR Part 201-6.4(c) we would like to commence the required 45 day EPA review period. The permit is available for your review on the New York State Air Facility System (AFS). If the EPA has any comments or objections to the permit being issued please forward them to myself at the above address.

If no comments are received from the EPA within 45 days of the date of this letter (**December 12, 2001**) we will assume the EPA has no comments or objections and that the permit can be issued. If you have any questions or need any assistance retrieving the proposed permit from the system I can be reached at (631) 444-0361.

Sincerely;

Application ID: 1-4722-00032/00115

Permits(s) Applied for: 1 - Article 19 Air Title V Facility

Project is located: in BROOKHAVEN in SUFFOLK COUNTY

Project Description:

The Department has prepared a draft permit pursuant to Article 19 (Air Pollution Control) of the NYS Environmental Conservation Law (ECL) and Title V of the Federal Clean Air Act Amendments and made a tentative determination to approve this application for the applicant's existing Brookhaven National Laboratory located in Upton, NY. Air emission sources at the facility include a central steam facility with four boilers that burn natural gas and oil. Other regulated sources include a paint spray booth, a printing press and two gasoline storage tanks and pumps. Emissions from this facility are controlled in accordance with multiple State and Federal regulations. This application, draft permit, relevant supporting materials, and regulations are available for review during normal business hours at the Region 1 office. Written comments may be made within the 30 day period ending on the last filing date indicated in this notice. The Department may modify the draft permit based on significant or important information raised during the comment period. The Department may also schedule a public hearing based upon an evaluation of the nature and scope of any written objections raised. A hearing notice would contain instructions on filing for party status and submitting comments. In accordance with 6NYCRR Parts 621.5(d)(9) and 201-6.4(c), the Administrator of the US Environmental Protection Agency (EPA) has the authority to bar issuance of any Title V Facility Permit if it is determined not to be in compliance with the applicable requirements of the Clean Air Act or 6NYCRR Part 201. Following the 30 day comment period, the EPA will have an additional 45 days to review the draft or modified permit. If the EPA does not raise any objection in that time, the Department may then issue the final permit as the Title V Permit.

State Environmental Quality Review (SEQR) Determination

Project is an Unlisted Action and will not have a significant impact on the environment.
A Negative Declaration is on file. A coordinated review was not performed.

SEQR Lead Agency None Designated

State Historic Preservation Act (SHPA) Determination

The proposed activity is not subject to review in accordance with SHPA. The permit type is exempt or the activity is being reviewed in accordance with federal historic preservation regulations.
